

# Flight Training Adelaide

Dear Applicant

Welcome to the Flight Training Adelaide (FTA) IndiGo Cadet Program. FTA has been delivering airline training programs to the world's leading learning since its inception in 1982. FTA became an IndiGo approved provider in 2017, and nothing gives us more pride than seeing our graduates transitioning into the airline's A320 fleet.

FTA prides itself in being an open and transparent Training Provider. In saying this, it is recommended that you look at FTA's pricing information in our website, which clearly details everything that is included in our price. You are encouraged to do a price comparison against other providers, taking into account all costs that are associated with the training program. The pricing information sheet will help you undertake the price comparison exercise.

As you may be aware, FTA operates two campuses. One is located in Adelaide, South Australia and the other in Toowoomba, Queensland. If you are successful in attaining a course position, you will be advised at which of the two campuses your training will be conducted in Australia. The training price is the same irrespective of campus location. It is worth mentioning FTA has conducted training at both sites in the past.

FTA trusts that the information provided is useful and should you have any further queries, please contact the FTA marketing team on [indigo@flyfta.com](mailto:indigo@flyfta.com)

In the meantime, you are invited to apply for the IndiGo Cadet Program via FTA's website.

Mr. Johan Pienaar  
Chief Executive Officer

## About Adelaide

Adelaide is the capital city of South Australia, and the fifth-most populous city of Australia. In June 2021, Adelaide had an estimated resident population of 1.4 million.

Adelaide has a Mediterranean climate with warm to hot dry summers and mild short winters, with most precipitation falling in the winter months. Average weather in the summer months is in the mid 30°C with average weather in the winter months being 11°C–15°C and the average yearly temperature being 23°C.

The Economist ranked Adelaide the world's third most liveable city in 2021.

## About Toowoomba

Toowoomba is a large inland city situated within a 90-minute drive from Queensland's capital city, Brisbane, the Gold and Sunshine Coasts and two international airports (Brisbane and Gold Coast). Toowoomba has an estimated resident population of 175,000.

Toowoomba has a subtropical climate with warm summers and cool winters. Situated on top of a mountain range, our climate ranges from a cool 5°C to 16°C in winter to a mild 17°C to 27°C in summer.

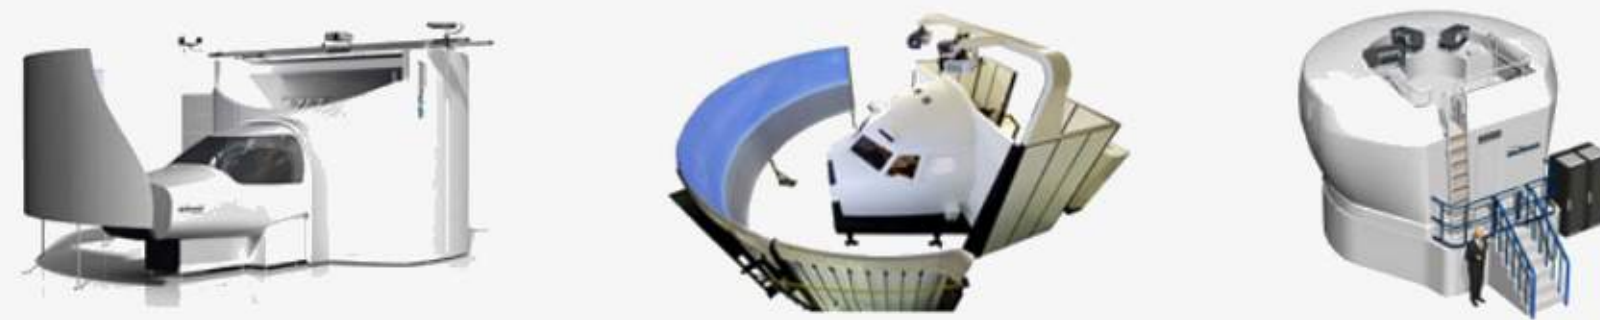

## Aircraft Fleet

State of the art Diamond Aircraft DA40 and DA42 fleet fitted with the latest Garmin G1000 avionics.

- 10 Diamond DA42 Twin Star
- 60 Diamond DA40 CS Star
- 2 Mudry CAP10

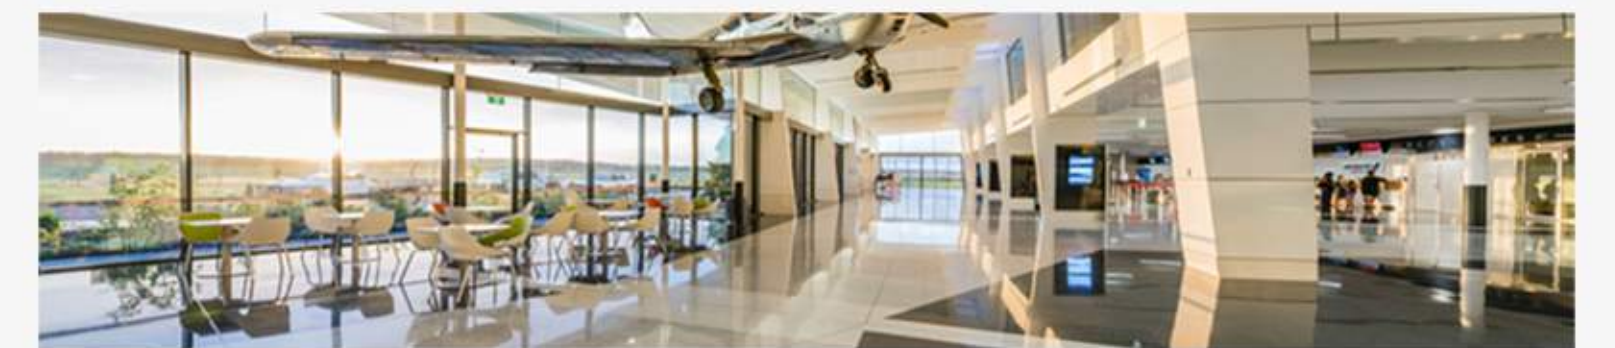

## Flight Training Devices

Wide range of simulators that are used as part of our integrated training programs.

- 3 Diamond DA40 FTDs
- 3 Diamond DA42 FTDs
- 4 Jet training devices for MCC (B737 & A320)

## Campuses Parafield & Wellcamp

The residential campuses at Parafield and Wellcamp airports are within the secure airport grounds. Facilities include:

- Single room accommodation
- Dining hall
- Fully equipped gymnasium
- Swimming pool (Adelaide only)
- Tennis courts, badminton court, soccer pitch and basketball court
- WiFi Internet access

## Course Overview (Phase 2)

Integrated ground theory and flying delivered over seven modules of training.  
On completion of the course, cadets achieve:

- Commercial Pilot Licence (CPL) - AVI50222 Diploma of Aviation (CPL-Aeroplane)
- Single-engine instrument rating - AVI50519 Diploma of Aviation (Instrument Rating)
- Multi-engine module

**Duration:** 46 weeks

### 210 hours flying training:

- 95 hours single-engine dual
- 100 hours single-engine solo
- 15 hours multi-engine dual

### 40 hours simulator training:

- 30 hours DA40 simulator
- 10 hours DA42 simulator

### Delivery

- 350 hours CPL (Aeroplane) and 35 hours Instrument Rating ground theory: face-to-face classroom lessons, supported by computer-based training
- Flying: individual flying lessons

## Minimum Entry Requirements

- Indian national or hold an overseas citizenship of India
- Between 18 and 40 years at the time of application
- Fluent in English, both written and verbal
- Hold a 10+2 with at least 51% in English, Maths and Physics from a recognised board or equivalent\*
- Ability to apply for an Australian Student Visa\*
- Ability to hold an unrestricted passport and the right to live and work in India
- Acceptable BMI range between 18 and 25
- Have the ability to produce a Criminal Record Check basic disclosure certificate.

*\* See website for further details*

## Application Process

- Visit [www.flyfta.com](http://www.flyfta.com) and select "Training Programs"
- Select "IndiGo Cadet Pilot Program" from the menu
- Complete and submit the enrolment questionnaire and registration form
- A representative will be in contact to review your application and answer any question you may have.

- Licence conversion and ground theory
- FTA Pre-course Computer Based Training

### Phase 2 (Adelaide or Wellcamp)

- AVI50222 Diploma of Aviation (Commercial Pilot Licence - Aeroplane)
- AVI50519 Diploma of Aviation (Instrument Rating)
- Multi-engine module

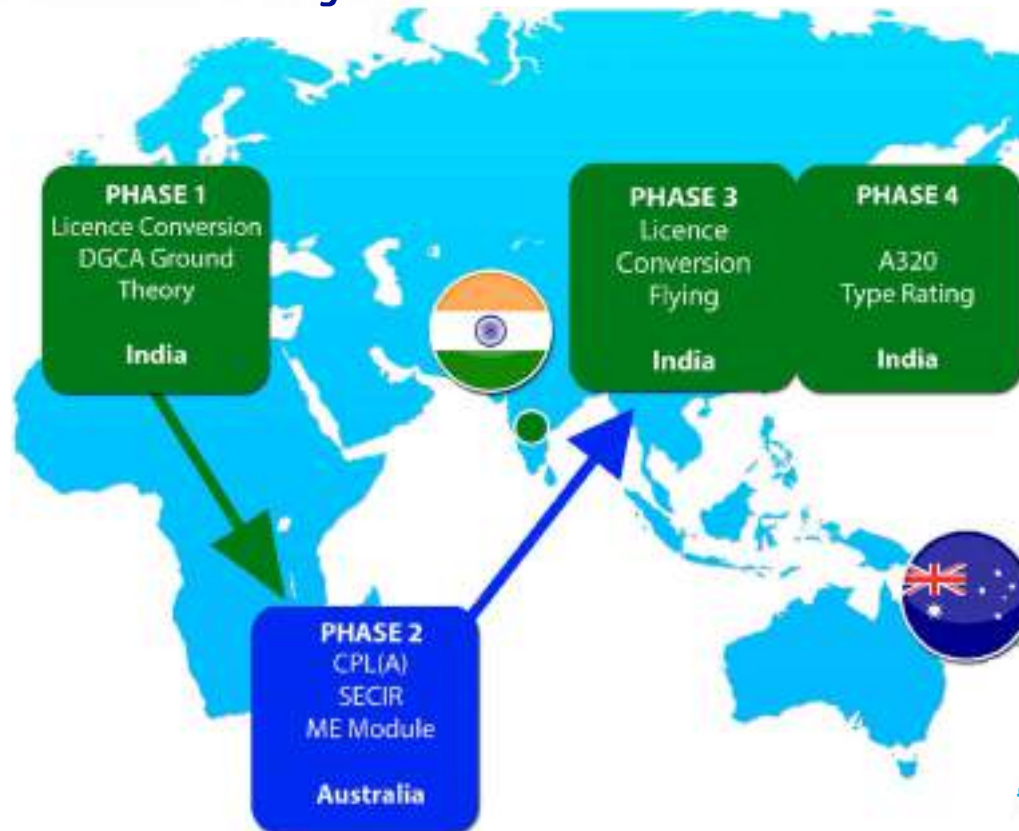

### Phase 3 (India)

- Licence Conversion Flying

### Phase 4 (India)

- Airbus A320 Type Rating

\* Visit the IndiGo Cadet Program page at [www.flyfta.com](http://www.flyfta.com) for additional information on the selection process, enrolment and updated pricing

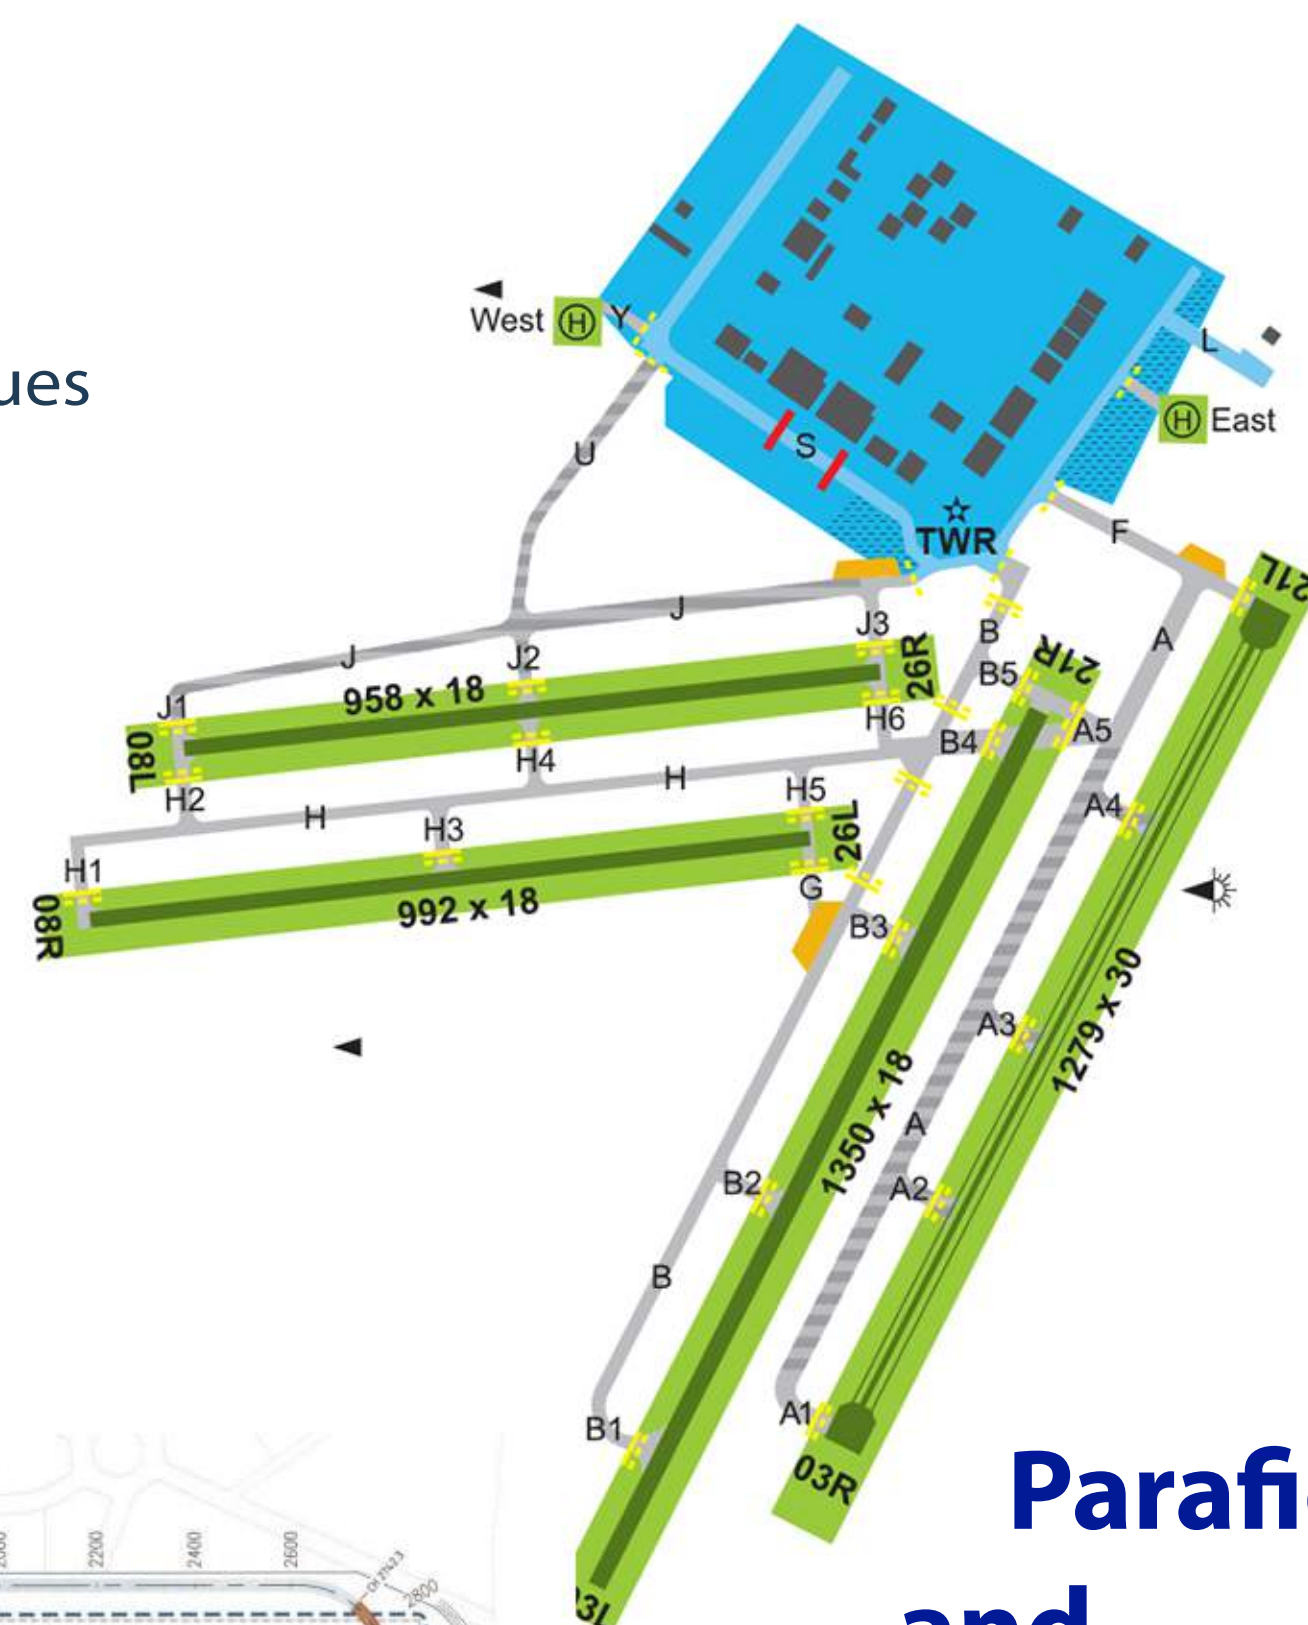

## Course Flow and Fees

## Practical Flying

- Basic and advanced flying techniques
- Advanced flying manoeuvres and procedures
- Navigation
- Night flying
- Operating in a commercial flying environment
- Multi-engine endorsement
- Instrument flying and 2D and 3D approaches

## Parafield and Wellcamp Airports

## Diamond DA40 Star

The DA40 is the perfect aircraft for ab initio training. It has excellent low speed handling characteristics for the basic flying phase, offers increased situational awareness and safety by virtue of the Garmin 1000 aviation suite and Traffic Alert System. It is an ideal learning platform to achieve a commercial pilot licence and provides an excellent introduction into instrument flying.

## Diamond DA42 Twin Star

The DA42 Twinstar is the aircraft of choice for FTA's multi-engine instrument flying phase. Its commonality with the DA40 cockpit allows for an enhanced learning experience in the IFR environment and the autopilot and glass cockpit functions are the ideal foundation for aspiring airline pilots.

## Looking after our cadets

At FTA we know that for many cadets their training in Adelaide or Toowoomba may be their first time away from home. Therefore we have support systems and infrastructure in place to make cadets as comfortable as possible and allow them to concentrate on training.

To help students at FTA, we offer:

- **Full time welfare team**

The student welfare team consists of male and female staff that are on call 24/7. They assist students with all non-operational issues during their training, such as medical emergencies, pastoral care, administration and personal support.

- **Campus**

Both campuses have been designed to cater for international students. The campuses are 30 minutes from the city centre. On campus all the training facilities are less than 5 minutes walking distance from student accommodation, including the learning resource centre. We also provide recreational facilities. The campus is secure and we have security guards on duty throughout the night.

- **Residential facilities**

Student accommodation is located within the airport grounds. We have dedicated male or female accommodation units. Each unit houses 4–6 students, each with a private bedroom and study area. Each unit has a shared lounge, kitchenette, laundrette and bathroom facilities.

FTA provides a cleaning service once a week, which includes clean linen and towels.

Units have full optical fibre Internet coverage, enabling high speed Skype access and social media contact with friend and family back home.

- **Catering facilities**

Our student mess provides three hot meals a day. In addition, students have access to snacks, cereals, juices, milk, hot beverages and fruit throughout the day. We cater for individual dietary and religious needs and our student campus committee liaises with management monthly to exchange ideas.

- **Recreational facilities**

FTA provides a large number of recreational and sporting facilities to students on campus: fully equipped gymnasium, tennis courts, swimming pool (Adelaide only), basketball court, barbeque areas and a soccer pitch.
